

# Windows Addendum

While I tried very hard not to make mistakes, a few of them appeared in my first book, *Windows*. This addendum corrects those that are significant as well as explains reasons for this current book.

- Page 73. Ferron Hales married Marguerite Ruff on April 5, 1934 and not 1935.
- Page 552. The endowment date for Thomas Livsey Pettersson is incorrect. It should be 2 December 1948.
- Additional information and corrected ancestry is provided in this book as new or rewritten chapters.
- The early generations of the Hales family has been rewritten and expanded to include information discovered in recent years. This new information is provided to document what is known to this date and to facilitate future research.
- The early generations of Christian Burgess, or more correctly Johann Christian Borges, has been rewritten to include later discoveries.
